--	--	---

with the organizational units/sites as listed in the annex
 has implemented and maintains a **Quality Management System**.

Scope:
 The Design and Manufacture of Timing and Power Transmission Chains.

Through an audit, documented in a report, it was verified that the management system
 fulfills the requirements of the following standard:

ISO 9001 : 2015

Certificate registration no.	20004054 QM15
Date of original certification	2002-05-16
Date of certification	2024-07-08
Valid until	2027-07-07

DQS Inc.

David Taylor
 Managing Director

Accredited Body: DQS Inc., 1900 McConor Parkway, Suite 400, Schaumburg, IL 60173 USA
 Administrative Office: Deutsch Quality Systems (India) Pvt. Ltd., Ground Floor, South Wing, Vaidyanath Tech Park,
 Sy. No. 16/1 and 17/1, Bellurub Gato, Sarjapur Main Road, Ambalipeta, Bengaluru - 560102 - India
 The validity of the certification can only be verified by the DQS code.

ROLON LUBE & CLEAN FOR CHAIN MAINTENANCE

ROLON® CHAIN CLEAN

FEATURES

- ✦ Solvent based cleaner with excellent degreasing power.
- ✦ Penetrates well and dilutes tough oil, grease & stains.
- ✦ Dislodges mud/ dust on chain components.
- ✦ Fast evaporation for better cleaning efficiency.
- ✦ Safe on chains including 'O' ring & 'X' ring.

ROLON® WHITE CHAIN LUBE

FEATURES

- ✦ Specially developed for professional biking drive chains.
- ✦ Special blend synthetic oil with white solid lubricants.
- ✦ High level of chain protection from Rust, corrosion, wash-off, Dirt and Grime.
- ✦ Special anti-wear additives provide exceptional protection against metal to metal contact for longer chain life.

ROLON® CHAIN LUBE

FEATURES

- ✦ Specially developed for Automotive drive chains.
- ✦ Prevents 'O' rings & 'X' rings becoming dry which will lead to their failure.
- ✦ Excellent penetration property ensures complete lubrication of Pin-Bush area in standard chains.

HOW TO USE :

Turn OFF the engine before you Clean / Lubricate the chain

Place the bike on the center stand

Shake **ROLON** Chain Clean container well before use

Spray **ROLON** Chain Clean On the Chain and Clean thoroughly

Shake **ROLON** Chain Lube container well before use

Hold **ROLON** chain lube container upright and spray from a distance of 5 cms as shown in the picture

LUBRICATION

1.0 PERIODICAL RE - LUBRICATION EVERY 500 Kms

- Periodical Re-Lubrication every 500 km for Sealed Chains.
- Rolon Chain lube / SAE 90 Oil For Re Lubrication
- In the sealed chains, lubrication is provided by grease and sealed by seal rings.
- Though Lubrication is present in the Bearing area, Still External Periodic lubrication will decrease wear and heat between roller and bushing, which provides better performance in chains
- Lubrication also keeps the seal rings in good condition and more frequent re-lubrication is required when the chain is working in harsh environment.

1.1 Lubrication with spray

- Place the bike on the center stand, rotate the rear wheel in reverse direction while Re-lubricating.
- Spray the lubricant inside the chain between inner & outer plate near the rear sprocket to the entire length of the chain for sealed chains. In case of non-sealed chains dip the cleaned chain in SAE 90 oil
- Spray the lubricant inside the chain between roller and bushes
- After lubrication wait for 15 mins.
- Excess lubricant should be wiped with a clean rag before use.

2.0 CLEANING & RE - LUBRICATION METHOD

- Dirt will reduce the chain life in no time.
- If the chain is not too dirty, the operation of lubrication is normally sufficient.
- When the accumulation of dirt on the chain (Sand, Mud, Asphalt particles (or) other foreign materials) is excessive, the chain must be cleaned / washed.
- Use Rolon chain clean or mixture of SAE 20W40 oil and kerosene in the ratio of 1:1 for cleaning the chain. Wait for 2 to 3 mins to enable chain cleaner penetration. Then clean with "soft" Brush (Nylon Type)
- After Cleaning, the chain has to be dried immediately.

3.0 CAUTION

- During water wash the chain sealed ring should not be exposed to water jet.
- Pressure must not exceed 3 bars
- Avoid use of steam, thinners (or) solvents such as petrol & benzene.
- While cleaning never use of hard brushes (or) other methods which will damage the seal rings.
- Ensure no damage in spring clip while fitment.
- Ensure spring clip open end facing opposite the direction of chain travel.
- Seal ring chain should always be replaced as a kit (Chain & Sprockets) only.

SEALED RING CHAINS

**100% TO OEMS
NOW IN REPLACEMENT KITS**

ROLON SEALED RING MOTORCYCLE CHAIN

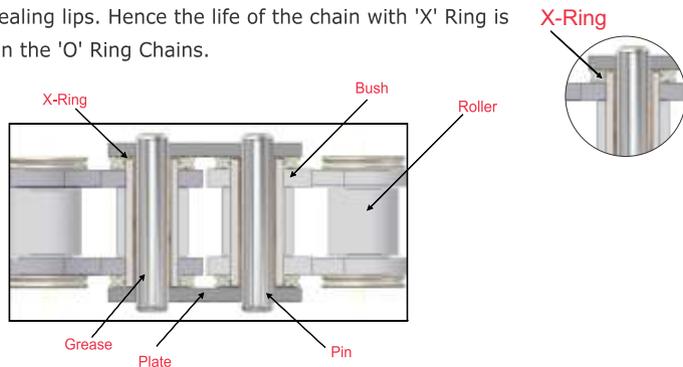

ROLON Sealed Ring Chain has dramatic improvement in durability performance, since grease is sealed between the Pins & Bushings by O-Ring / X-Ring / M-Ring / C-Ring Sealed Ring Chains are truly remarkable in Wear resisting performance and expected to last longer than ordinary construction standard chains, for large displacement motorcycles.

'O' RING

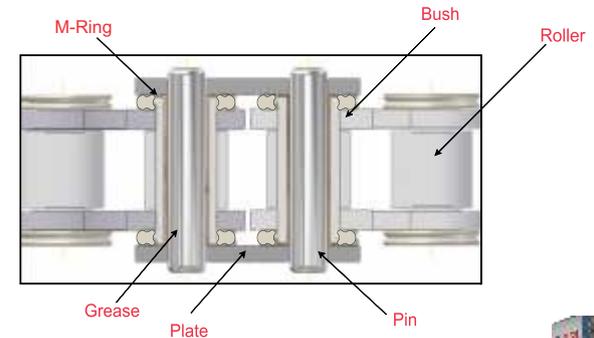

'X' RING

X - Ring's four contact points greatly increase sealing performance. Retains the grease inside, in a better way than 'O' Ring since it has four sealing lips. Hence the life of the chain with 'X' Ring is higher than the 'O' Ring Chains.

SEALED RING CHAINS

'M' RING

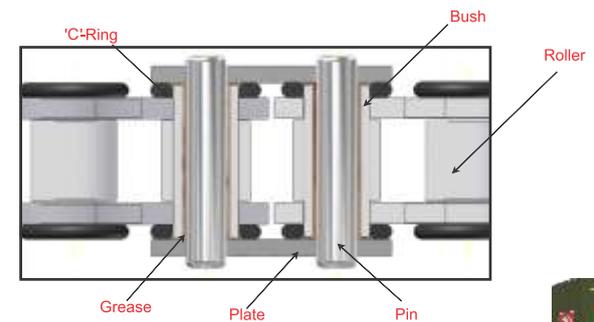

SALIENT FEATURES

CHAIN

- ▲ New Improved Seal Ring for Long Lasting Lubrication
- ▲ Enhanced Life with Synthetic white lubricant
- ▲ Enhanced Flexibility

'C' RING

SALIENT FEATURES

- ▲ Instant response to throttle
- ▲ Longer and wider plates
- ▲ Comfort and smooth riding
- ▲ Minimize the maintenance
- ▲ Six point seal to retain lubrication

QUADRA RIVETING

Enhanced chain strength due to Quadra riveting

SALIENT FEATURES

CHAIN

- Enhanced life due to bevel edge plates
- Provides smooth engagement of sprocket over the chain
- Handles sprocket misalignment
- Provides better aesthetics
- Enhanced chain strength due to increased plate thickness

SPROCKET

- Enhanced Wear Resistance
- High Fatigue Strength
- Outstanding Durability

SALIENT FEATURES

- 🌀 Synthetic white lubrication - Provides excellent wear performance
- 🌀 Extremely low initial elongation - No need to adjust the chain during initial period
- 🌀 Quiet - Noiseless
- 🌀 Sprocket - Stronger teeth results in very long life
- 🌀 Lighter kit - Provides excellent transmission and fuel efficiency

PRECISELY MANUFACTURED SPROCKETS WITH BROADER TOOTH WIDTH

EXTENDED CHAIN PITCH FOR ROBUST OPERATION

SALIENT FEATURES

- Synthetic white lubrication & lighter kit weight provides outstanding wear performance
- Prolonged initial elongation
- Noise free
- Built for high load carrying
- Extended sprocket life by broader tooth width design
- Excellent Transmission Efficiency

PRECISELY MANUFACTURED SPROCKETS WITH BROADER TOOTH WIDTH

EXTENDED CHAIN PITCH FOR ROBUST OPERATION

SCOOTER BELTS

SCOOTER BELTS

6G TECHNOLOGY BELTS
WITH HIGH ENDURANCE POLYMER
BUNDLED WITH GREAT QUALITIES

- IMPROVED OUTER FABRIC
- BULLET PROOF ARAMID FIBRE BLEND
- HIGHLY ENGINEERED CUSHION RUBBER
- HIGH TENSILE CORD
- SUPERIOR CRACK RESISTANT RUBBER
- PROTECTIVE COATED POLYAMIDE FABRIC

BELTS FOR THE PRESENT & THE FUTURE

- SPECIALLY DESIGNED COMPOUND FOR LONGER DURABILITY WITH LOW HEAT BUILDUP
- SUPERIOR RESISTANCE AGAINST CRACK DEVELOPMENT
- EXCEPTIONAL WEAR RESISTANCE
- SUPERIOR POWER TRANSMISSION
- EXCELLENT TENSION STABILITY
- BETTER PERFORMANCE AT VARIOUS CLIMATES
